THOTA

An ISO 9001:2008 Certified Company

TCC is a division of Thota **COLDCEL** Pvt. Ltd. established in 2010 manufacturing transformers under the brand name **THOTA** having its modern plant deploying the latest State-of-the-art technologies, process and equipments in 8 acres of industrial land with 60,000 sq.ft. floor area.

THOTA transformers are successfully designed and Tested, rating 25 KVA to 8000 KVA in CPRI, ERDA, NABL Labs besides certifications from RITES, TUV, CEIL, BIS, BEE and other reputed National and International Agencies.

The organization is promoted by personnel having Post-Graduate, Technical and Management Qualification from ISB, IIM, TMTC, NIT etc., with 30 years of rich experience in Transformer Industries : TATA's, BHEL, Toshiba, General Electric and MNC's at very senior level.

High performance, Energy efficient, Power saving,
Cost effective Transformers

TCC is a decade old, futuristic, Forward looking organisation in the field of TRANSFORMERS Upto **50,000 KVA | 132 KV**

The plant and machinery is Integrated with World-Class Technologies: LABEVO - Germany, Proface - USA, YOKOGAWA - JAPAN as per national and International Standards

THOTA introduced HMI-IED configured with German LABEVO Vacuum Auto Clave "*First Time in India*", gives direct instant values (Vacuum vs Pressure vs Temperature vs Internal resistance) of the transformers in Graphical representation.

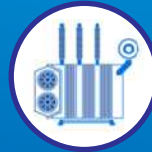

Solar Transformers:
THOTA Solar Invertor Duty Transformers upto 10MVA and 5 multiple windings are commissioned and working at the utmost satisfaction of our prestigious client solar parks.

Solar Transformer

Transmission Transformers Upto 132KV

Distribution Transformer

Power Transformer

Hydel Transformer

Mining Transformer

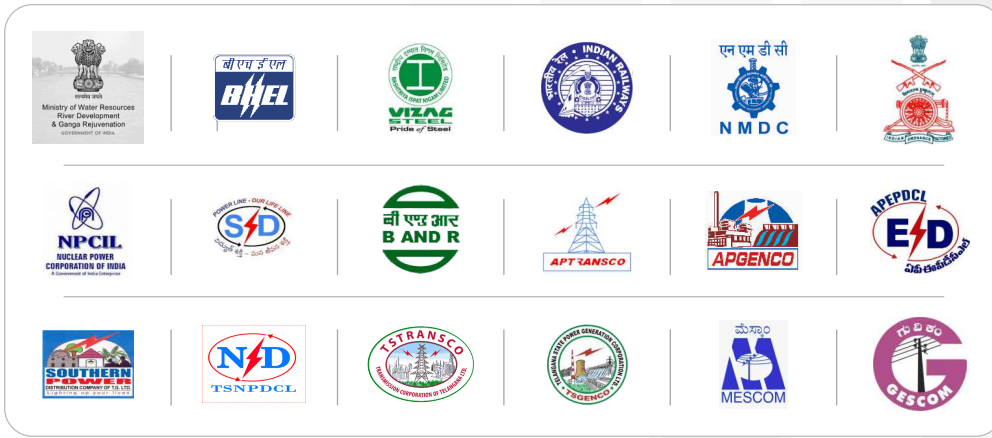

Furnace Transformer

Dry Type Transformers

Manufacturing upto 50,000 KVA | 132KV Transformers

Trusted Business Partners

Solar Inverter Duty Transformers

Few of our prestigious clients

Why

THOTA

- ▶ High performance, Energy Efficient, Power saving, Cost effective Transformers
- ▶ ZERO Percent failure in Power Transformers since a decade
- ▶ **THOTA** Transformers are Tested & Certified by NABL Labs besides National and International reputed Agencies.
- ▶ **THOTA** established in 2010 with world class technologies from LABVEO - Germany, Proface - USA and YOKOGAWA - Japan.
- ▶ Management is from ISB, IIM, TMTC, NIT with 30 years of rich experience from TATA's, BHEL, Toshiba, General Electric and MNC's.
